Comments from the community included:

- clarification of funding for curriculum liaison teachers  
(proposed new curriculum development is supported by Title IIA funds and positions will be available on a yearly basis as long as Title IIA funds are available to the district – the distribution of positions are: 4 per grade level at Pulaski Street School; 4 per primary building; and, special projects liaisons, to be determined)
- amount of architectural contract with Burton, Behrendt and Smith  
Mrs. Montefusco stated that the Board is still negotiating the contract and has yet to be signed. She also stated that the Board plans to enter into two contracts – one for portable classrooms at the High School and the other to build a new high school.

-concern that the architects were recommended to the Board by the Space Planning Committee which has been criticized for inadequate representation of the people/community as a whole for Riverhead

-a teacher and resident suggested that the recently revised field trip permission slips be translated into Spanish and perhaps Polish, as well.

-Dr. Peter Pace spoke on the lack of notification from Long Island Blood Services or the district when his daughter had an adverse action to her volunteer donation of blood on October 29<sup>th</sup> at the Long Island Blood Services sponsored school blood drive at the Riverhead High School. Mrs. Montefusco apologized and stated that the Board of Education was unaware of this situation and gave assurance that the matter would be investigated.
