Re: Inclement Weather Procedure – Riverhead Central School District

The following outlines the District Procedure for determining whether or not a student attending an out-of-district school will receive transportation services when inclement weather occurs.

There are two Steps to this Procedure

Step 1 : You must determine what the Riverhead CSD is doing.

If the Riverhead CSD is closed, NO transportation will be provided.

If Riverhead CSD has a “delayed opening,” ALL transportation services will begin after the delay time has passed.

Step 2 : You must determine what the home district where your child attending school is doing.

If the home district is closed, Riverhead CSD will not provide transportation as the home district has declared their roadways dangerous and for liability reasons Riverhead will not enter the district.

If the home district is on a delay, then Riverhead will provide transportation services after the delay time has passed. The reason behind this is also liability, once again the home district has declared their roadways dangerous and we will not transport until the home district determines their roads are safe.

Our objective is to keep the students receiving transportation services safe. Riverhead CSD depends on the other districts where our children attend school to make the decision and once that decision has been made, Riverhead follows that lead. This procedure has been in place for over 30 years and has been extremely successful.

It is our hope that after reviewing this information, you will understand the rationale in our decision making process. If you should have any further questions, please do not hesitate to call our office at 631.369.6720.

Thank you.
