

## **Riverhead CSD hosts community facilities information meeting**

On Tuesday, Nov. 5, the Riverhead Board of Education and administration invite all community members to attend the last in a series of information-sharing facilities meetings. The meeting will be held in the Large Group Instruction Room 133 at Riverhead High School starting at 7 p.m.

This is a challenging and exciting time for the Riverhead CSD and community. For the past several months, the board of education and administration have been carefully analyzing the district's current and future needs in anticipation of proposing a bond referendum to the community in early 2020. During that time, several community meetings were held to discuss ways to build on the district's success and to address the district's critical issues and potential solutions. An important component of these meetings has been community feedback, which the board has been taking into consideration as the plans are being developed.

Once the final decisions are made, the scope of work included in the bond referendum will focus on the academic needs of all students, the impact of projected enrollment growth and instructional space concerns, overcrowding and equitable solutions, safety and security enhancements, and needed infrastructure upgrades and renovations to protect the community's investment in the district's schools.

The board of education and administration encourage all community residents to attend the meeting on Tuesday, Nov. 5. Please be part of planning the district's future together.
