

The Riverhead SEPTO adopted the RAINBOW as our symbol.

Rainbows are a symbol of hope in many cultures. They represent the mystical and a promise of a better future for all that see them. This glorious prism of color has been a connection to our past and our future working together to create wonder in us all. People have written songs about rainbows and some have used them to represent bridges that connect one world to another. There are legends of the rainbow that pre-date many of us and folklore passed down from generation to generation meant to ignite love and friendship.

Did you know that rainbows are actually full circles? We only see what is above the horizon here on earth. In order to see the full circle of a rainbow we would have to soar high up in the sky like a bird or sitting on a plane. Don't just see half of the rainbow! The Riverhead SEPTO asks all of our members and residents to soar high over the horizon and see our community as a whole - composed of many, without marginalizing and or dehumanizing those who may seem different. Because sometimes, if all you are seeing is half of something - how can you really know all of the beauty that surrounds you?

Best Wishes,  
The Riverhead SEPTO
