December 22, 2023

Dear Parent/Guardian,

Starting this January, RHS students will begin the course selection process for next school year. Scheduling presentations will be facilitated by guidance counselors through each student's English class. Counselors will share important information about next year's Scheduling Timeline, Course Offerings, New Courses, Outside Programs, Elective Offerings, Regents Exams, Diploma Types and NYS Graduation Requirements. (This slide presentation is currently available for your review and is posted on the RHS Guidance webpage.)

Additionally, the 2024-2025 RHS Course Offering Booklet is also posted on both the High School and Guidance Webpages.

Immediately following these group presentations, students will meet with their guidance counselors in small group or individual settings to select their courses for next year. These meetings will run throughout the entire month of January and will conclude in early February.

Throughout the winter and spring, the high school staff will work to create the 2024-2025 master schedule. It is important to note that for a variety of reasons--including, but not limited to low student interest/enrollment, continuity of established programs, shifts in building needs--not all RHS electives may run as offered during the course selection process. If a student selects an elective course that does not run, they will be placed into the alternate elective class of their choosing. A letter will be mailed home in late March detailing the courses in which your child will be enrolled (Note that this is not your child's schedule, just the list of courses in no particular order).

If you have any questions regarding specific courses, programs, the scheduling process or your child's course selections for the 2024-2025 school year, please do not hesitate to contact your child's guidance counselor.

| Counselors | | |
